

# CLEANTECH VENTURE DAY

10TH - 11TH OCTOBER  
LONDON

## PROGRAMME

THE ULTIMATE MEETING PLACE FOR CLIMATE TECH INNOVATORS AND INVESTORS

Welcome to Cleantech Venture Day, Cambridge Cleantech's bi-annual meeting place for cleantech companies, investors and corporates.

With over 16 years of successful Cleantech Venture Days, the 250+ companies that have pitched have gone on to raise more than £650m in secured investments.

We hope you make some valued connections and enjoy the day!

## INVESTORS DAY

## 15.00 Arrival and registration

With the effects of climate change ever increasing and being seen across the world, we look at global investment flows, and the urgency to accelerate innovation; exploring the influence of green deals and the SFDR on investment flow and innovation in the UK.

## 15.30 Welcome

**Prof Stephanie Hussels**, Director Bettany Centre for Entrepreneurship, Cranfield University & Board Director, Cambridge Cleantech.

## 15.40 Setting the Scene

**Orla Browne**, Head of Insights, Dealroom.co sets the scene on global investment flows.

## 15.50 Panel Discussion

Join **Catherine Fraser** from Carbon 13, **Oli Owens** from Green Angel Ventures, **Jessica Burley** from Planet A Ventures and **Priya Shah** from Theia Ventures as they discuss how green deals are shaping global investment flows. Are there any potential risks or imbalances that may arise due to concentrated investments in specific regions or sectors?

## 16.20 Discussion

**Jessica Burley** from Planet A Ventures and **Daniel Hirschfield** from Taylor Wessing discuss whether The Sustainable Finance Disclosure Regulation is a new gold standard for impact funds.

## 16.30 Design Thinking

Behaviour Change and Sustainability Consultant, **Dr. Richard Wright**, looks at Impact and Profitability within Design Thinking.

## 16.45 Q&amp;A all speakers

## 17.15 End of Investor Only Session.

## Roundtables

## 15.00 - 16.00 - Climate Tech SuperCluster

Sponsored by **EDF**, this roundtable will look at Technology Transfer and Innovations and how superclusters can accelerate technology transfer and encourage innovation in clean technologies.

## 16.15 - 17.15 - Hydrogen

Looking at the UK's Green Hydrogen economy, this roundtable will consider opportunities and uncertainties within the sector.

## Open Evening Networking

Open to all Cleantech Venture Day and Roundtable delegates.

## 17.00 - Doors open

## 17.30 - Networking reception

Welcoming remarks from Cambridge Cleantech and Taylor Wessing.

## 19.30 - Event closes

5 pitching companies (5 min pitch + 5 min Q&A)

- **RAIKU Packaging**, Karl Pärtel, Co-Founder
- **Pattern Project**, Shruti Gover, Co-Founder
- **Cambond**, Xiaobin Zhao, Director
- **Seloxium**, Christian Peters, Co-Founder & CEO
- **Ailuna**, Lars Ronning, Founder & CEO

Panel: **Viola Jardon**, CISL, **Josh Simpson**, Alan Boswell Group, **Jim Totty**, Viridis.

12:55 Morning session wrap-up

13:00 Networking lunch

14:00 Investor Partnerships Future Economy Programme with **Bruce Colley**, Senior Investment Specialist, Investor Partnerships team, Innovate UK.

## Session 3: Building Tech

14:10 Chaired by **Alison Cavey**, Chair, Cambridge Cleantech.

4 pitching companies (5 min pitch + 5 min Q&A)

- **InferSens**, Jana Voigt, CEO
- **Teknobuilt**, Yulia Conley, Sustainability Director
- **Thermulon**, Alex Murdock, CTO
- **Freesuns SA**, Deborah Learoyd, CEO

Panel: **Shruti Iyengar**, Future Planet Capital, **Robert Hokin**, Greenbackers, **Andrew Priest**, Birketts.

15:15 Networking break

## Session 4: Energy Transition

16:00 Chaired by **Sam Goodall**, CEO, Cambridge Cleantech.

16:05 The Energy Revolution with **Maurits van Tol**, CEO Catalyst Technologies, Johnson Matthey.

16:20 4 pitching companies (5 min pitch + 5 min Q&A)

- **SpinDrive**, Nikita Uzhegov, Co-Founder, COO
- **Verv Energy**, James Strickland, COO
- **Monumo**, Dominic Vergine, Founder & CEO
- **Power to Hydrogen**, Alex Zorniger, VP Business Development

Panel: **Susannah McClintock**, Clean Growth Fund, **Joe Simon-Brown**, J A Kemp, **Adam Croft**, KPMG.

17:10 Wrap-up with **Sylvie Russell**, COO, Cambridge Cleantech.

17:15 Networking

19:00 Close

## DEALFLOW

### Mobility

#### **CoolRun**

The CoolRun pod eliminates 100% of emissions from handling temperature controlled goods.

#### **NEVA Group (Pixii)**

Developing sustainable solutions for the maritime industry.

#### **MOLE**

Automated EV charging for businesses and consumers.

#### **Clipper Automotive**

EV kits for London cabs.

#### **Dogtooth Technologies**

Intelligent robots for soft fruit picking.

#### **Magway**

Decarbonising supply chains through zero-emissions goods movement.

### Circular Economy

#### **Pattern Project**

AI-led made to order supply chain service for on-demand garment manufacturing.

#### **RAIKU Packaging**

100% compostable, durable, protective packaging to substitute plastic packaging.

#### **Cambond**

Replacing traditional oil derived, energy intensive adhesives with bio-resin plastics.

#### **Seloxium**

Recovering metals from wastewater to combat freshwater pollution.

#### **Ailuna**

Sustainability behavioural change app.

### Building Tech

#### **InferSens**

Using machine learning to sense water flow and temperature, saving cost, water and carbon.

#### **Teknobuilt**

Using machine learning to deliver projects faster and with real-time carbon optimisation.

#### **Thermulon**

Producing aerogels 5x cheaper and at scale.

#### **Freesuns SA**

Integrated solar for residential, commercial and heritage buildings.

### Energy Transition

#### **SpinDrive**

Active magnetic bearings with IoT to equip manufacturers.

#### **Power to Hydrogen**

Commercialising AEM electrolyzer to produce high pressure hydrogen, oxygen and energy storage.

#### **Monumo**

Designing and optimising drive train and power generation systems.

#### **Verv Energy**

Predictive maintenance and real time energy wastage monitoring for smart, sustainable buildings.

## THANK YOU TO OUR SPONSORS & PARTNERS
